

NORTH CAROLINA JUSTICE ACADEMY
COURSE AND INSTRUCTOR EVALUATION

COURSE Report Writing - Doc. Use of Force

DATE 3/12/04

COORDINATOR John Blum / Tullis

LOCATION NCJA-W

The Academy is committed to a continuous effort to improve training. Thoughtful, constructive student evaluation of courses and instructor performance is a primary source of information for this purpose. Please respond to the following questions.

What did you like about this course? (Please consider: instructional setting, course materials, course content, training objectives covered, instructional methods, coordination, testing procedures.)

Objectives + Instructional methods. Content was superb. Many thanks across the board.

Do you feel this course was valuable (presented information was useful and applicable)? Please explain.

In 17 years this is the one course that is most likely to stay in officer's career besides firearms training. I do "Routinely" deal w/use of Force Reports and I'll never again do it the same way.

What suggestions do you have for modification or improvement of this course?

-NONE-

EXCELLENT COURSE AND HIGHLY APPLICABLE.

What other training needs do you have that the Academy is not addressing?

Obviously my S.C. Academy could learn from our Northern neighbors.

OTHER COMMENTS

This course should be standard & required as part of Primary Academy training lessons being supplementary training.
